

**Animal Exploration with the Wild Kratts (Grades K - 3)**

Join the adventures of the Kratt brothers as they encounter incredible wild animals, combining science education with fun and adventure, while traveling to animal habitats around the globe. We will watch an episode of Wild Kratts and then learn more about animals through fun activities. This class is best suited for students who are currently in 2<sup>nd</sup> grade and under.

**Summer of S.T.E.M. (Grades K - 3)**

We will use collaboration and imagination as we explore S.T.E.M. (Science, technology, engineering and math). Kids will create solutions to problems with a given set of directions and supplies. We will also take a look at some coding!

**Babysitting (Grade 5 - 8)**

This class will help students become better babysitters with activities, videos, games, parent/child visits, and tools. After the completion of the class, students will get a certificate and most importantly, new knowledge and skills that will make them confident babysitters. This will allow them an opportunity to earn money while impacting young minds. There will be a **small fee** to take this class.

**Chess Club (Grades 3 - 8)**

Come learn, play and compete in the timeless game of chess! Whether you are a beginner or advanced this class is for you!

**Technology Club (STEM) (Grades 4 - 8)**

We will design, create, and build using cutting-edge technology, engineering, and mathematics. We will compete in different challenges and bring thoughts and ideas to life!

**Outdoor Games and Adventures (Grades 3 - 8)**

Play and compete in the best outdoor games with your friends and classmates. If you are looking to get outside and play awesome, fun, fair and competitive games this is the class for you!

**Fun & Fit Through Lifetimes Sports & Organized Games (Grades K - 8)**

Do you like to run around and be active? This class allows you to be active in team sports and games. You will play new games you may have never done before along with some of your old favorites. All activities will either be outside or in the gymnasium.

**Science Experiments (Grades K - 8)**

Do you like to get your hands dirty? Well, you might have the opportunity to do just that if you make a mess as you explore science by creating and observing different chemical reactions with many household items.

**Bicycling (Grades 2-8)**

Here is your chance to get outside and pedal away from the school. Biking is a great past time that is enjoyed by all ages. This class will get you riding around town each day, you'll learn the rules of the road as a bicyclist, and you'll even get to watch a bike race or two if we are trapped inside because of rain.

**Gym Games (Grades K - 3)**

Spend a part of your summer playing your favorite games from physical education class during the school year. Have fun, get great exercise, and learn about fair play and exhibiting good sportsmanship.

-OVER-

**Guided Drawings (Grades K - 8)**

Children love to draw pictures, but for some, it can be a difficult experience. This class will teach students step by step drawing, using basic shapes to create pictures at all levels. Students will also have the opportunity to add writing to their illustrations.

**LegoMania (Grades K - 8)**

This class is designed for the little Lego maker in mind! Children will use their creativity to build vehicles, structures, and cities. Come have fun, learn to share, build cool structures and let your creativity shine!

**Fishing Fun (Grades 1 - 8)**

Field Trip Transportation **Fee**. Students will learn a variety of basic skills such as tying a knot or casting a lure. After fishing lessons and activities, we will end our class by trying our luck at a local lake.

**Rocketry (Grades 3 - 8)**

Build and fly rockets and paper airplanes using math and science. This class is designed for anyone interested in building rockets. There will be a **lab fee** for this class to cover the cost of the Rocket.
