850 MAPLE STREET
GLENWOOD CITY, WI 54013

HOME OF THE HILLTOPPERS

February 1, 2017

Dear Parents,

We have had a couple of confirmed cases of Influenza, with an increase in influenza like symptoms in our schools.

During influenza season, the following guidelines are recommended:

- People with influenza-like illness remain at home until at least 24 hours after they are free of fever (100° F) or signs of fever without use of fever-reducing medications.
- Cover your cough
- Wash your hands
- Get plenty of rest

Remember, it is not too late to get the influenza vaccine if you, or your child, haven't already this season.

When you call to let the school know that your child is sick, please tell us about the illness and symptoms your child is experiencing. This is helpful information to prevent the spread of disease and keep children healthy and ready to learn.

Please call the health office if you have any questions regarding your child's need to stay at home.
