Dear Parents and Guardians,

The St. Croix County Health Department, in partnership with Glenwood City Schools is pleased to offer an on-site influenza (flu) immunization clinic for students.

Getting immunized is one of the best ways to help protect children, families, and the school community from influenza. This immunization will be provided at no cost to students.

Friday, October 9th, 2026
2:00 pm-4:00 pm

A parent or guardian must complete the consent form before a student can receive the flu immunization. Signed consent forms should be returned by **Tuesday, October 6th**. Parents do not need to attend the clinic with their child.

Students who **do not** have a completed consent form will not be immunized.

The immunization process is quick and will take place during the school day under the supervision of trained health department personnel. Students should wear clothing that allows easy access to the upper arm.

For questions about the clinic, please contact your child's school nurse.

Thank you for partnering with us to help keep our students, families, and school community healthy this flu season.

Sincerely,

St. Croix County Health Department
