

Scholarship Booklet

- This booklet lists scholarships that have been offered in the past (**please keep in mind that changes may occur year to year**).
- Use this as a guideline of when the scholarship may be available. Scholarship applications are usually available about two months prior to being due.
- Use this as a resource to access on-line applications. If it is not listed in this booklet with a website; it is likely that a paper application will be required. Copies of paper applications (when sent to the school) will be available from Ms. Laffin.
- Writing one good general essay early on is a great idea. It can often be adapted to use with a variety of scholarships.
- If you are asking people for a letter of recommendation make sure you give them several weeks to get back to you.
- If the scholarship requires a transcript please request one from Ms. Laffin or the office (don't ask for it the day it is due- always allow several days).
- Our school is only one place to learn about scholarships. Many scholarships exist that we may not know about. Other places for seeking scholarship information: parents', or your own place of employment, postings in stores, co-op's, etc., free scholarship websites, the financial aid office of the school(s) you are applying to, the campus websites where you are applying.
- Never pay a fee or any money when applying for scholarships. Scholarships are meant to be free.
- Never give out your social security information when applying for scholarships, sadly there are lots of scams that exist. Be wary.

The School District of Glenwood City does not discriminate on the basis of sex and prohibits sex discrimination in any education program or activity that it operates, as required by Title IX and its regulation, including in admission and employment.
